### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Neither Seeley, Burt, nor any of the cited references discloses or suggests acquiring a plurality of acquired images "prior to the pressing of a check start button," and then "acquiring at least one acquired image ... after the pressing of said check start button." Nor do they disclose comparing at least one of the images acquired after the pressing of the check start button with at least one registration image to determine if there is a match, as claimed, and then comparing at least one registration image to at least one image acquired before the pressing of the check start button when there is no match, as claimed.

Regarding claim 2, Neither Seeley, Burt, nor any of the cited references discloses or suggests acquiring a plurality of acquired images prior to the "pressing of a check start button," and then "comparing at least one acquired image with at least one registration image" after the pressing of said check start button. Nor do they disclose repeating the comparing of another acquired image "captured prior the pressing of the check start button" with at least one registration image if the first comparison indicates no match, as claimed.

Claims 17, 29, and 36 are allowed for substantially the same reasons as claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
